

CORNUCOPIA CENTERPIECES

EDIBLE SUGAR CONE & FRUIT MAKE A GREAT CENTERPIECE

1 cantaloupe
1/2 cup blueberries
1 pomegranate
1 small bunch grapes
1 plum
12 waffle-style sugar cones

Directions:

Slice cantaloupe thin and remove skin.

Slice plums thin, leaving skin.

Remove seeds from pomegranate - my favorite way to do this is to cut in half and then hold over a bowl. Smack the end and edges of the pomegranate with a wooden spoon and it will release all of the seeds quickly.

Assemble the cornucopias by placing all waffle cones in a pyramid to start with. Insert the cantaloupe and plum slices first, then add in the grapes, blueberries and pomegranate seeds where you can fit them in.

Garnish the fruit with additional fruit
